

## MAT Clinics in Kenya Improve HIV Services for People who Inject Drugs

Over the last six years, Ciheb in Kenya has supported the development of two medically assisted therapy (MAT) clinics in Nairobi to provide HIV services to people who inject drugs. Through harm reduction interventions, these facilities have supported more than 2,100 people.

## Ciheb featured on Face to Face with Dr. Bruce Jarrell

University of Maryland, Baltimore President Bruce Jarrell recently hosted an online discussion about the impact of COVID-19 in sub-Saharan Africa. Ciheb has been playing a key role in responding to the COVID-19 pandemic, while also reinforcing ongoing HIV surveillance and treatment programming during this challenging time.

President Jarrell invited two Ciheb country leaders to join him in the discussion, Alash'le Abimiku, PhD, professor of medicine, IHV, UMSOM; executive director, International Research Centre of Excellence at IHV-Nigeria; and senior technical advisor, laboratory services, Ciheb; and Ndwapi Ndwapi, MD, country director for Botswana. A large virtual crowd from across the globe tuned in to watch and ask questions during the event, which was recorded and is now available to all.

## See Ciheb's Sessions from AIDS 2020

The International AIDS Society's preeminent annual global conference is where scientists share new research on HIV/AIDS. This year's conference was entirely virtual, and Ciheb chaired two live sessions and presented numerous abstracts. Check out the full videos from our two live sessions: "The 'graying' of the HIV epidemic in sub-Saharan Africa," and "Harnessing surveillance data to improve individual patient retention and re-engagement in HIV treatment" and read about our other presentations.
